

Loïc NAZARIES

DATA CONSULTANT

+33(0)6 24 80 83 15 | loicnazaries.datascience@gmail.com

Organised | Pedagogue | Humble | Rigorous | Accessible | Autonomous

"Data enthusiast across all its forms, with skills spanning database creation, business intelligence, statistical analysis and machine learning. »

Areas of expertise

Data Science & Analytics

- **Data Mining:** Aggregation | Data Cleansing | Web Scraping
- **Machine Learning:** Supervised & Unsupervised Learning
- **Statistical Modelling:** Fit Scoring | Segmentation | Bayesian Inference

Generative AI & Agents

- **Orchestration:** Setting up an AI agent (Hermes), agentic workflows
- **Local deployment:** Use and configuration of local LLMs with Ollama and LM Studio
- **Development:** Integration with AI services through API keys and dedicated Python libraries

Tools & Languages

- **Programming:** Python | R | SQL | MATLAB | SAS
- **Business Intelligence:** Postgre SQL | BigQuery | SQL Server | Talend | Alteryx Designer
- **Dashboards:** Tableau | Power BI | Looker (Google Data) Studio
- **Web Development:** Streamlit (Python) | Shiny (R) | Hugo

Professional experience

Data Consultant | Softeam, Bordeaux (33) – 10/2025 to 05/2026

- Web scraping optimisation with AI.
- Integration of local LLMs and third-party services for intelligent metadata extraction.
- Implementation of an AI agent to automate collection workflows.
- Redesign of the existing codebase and creation of a web application for scraping operations.
- Technical management: collection of multi-currency e-commerce data, geolocation & pop-up handling.

Data Scientist/Analyst | Epsyl, Alcen Group, Bordeaux (33) – 05/2022 to 09/2025

- Image analysis: detection and prediction of defects on production lines using machine learning.
- Advanced statistics: Probability of Detection (POD) studies and application of frequentist and Bayesian methods for the analysis of complex systems.
- Creating ETL processes in Talend.
- Writing user guides and recipe books (French/English).

Trainer/Lecturer (Freelance) | Lectures at ISEG, IA School, Diderot Education (Bordeaux) – 2021 to 2025

- Teaching of Data Viz (storytelling, KPIs) and associated tools (Tableau, Looker Studio, Shiny).
- Biostatistics courses and R software training.

Data Scientist | Western Sydney University, Sydney (Australia) – 10/2011 to 05/2019

- Applying machine learning methods | A/B Tests.
- Geographic and time-series modelling.
- Project management: Budgeting for missions | Monthly reporting to customers and stakeholders.

Training

Professional Designation – Python Developer, Data Analytics & BI | La Piscine Training Centre (Bordeaux) – 01/2020 to 11/2020

PhD – Biostatistics & Data Analysis | University of Warwick (England) & James Hutton Institute (Aberdeen, Scotland) – 2007 to 2011

Certifications: WatsonX Agentic AI (IBM) – 2025 | Machine Learning (Kaggle) – 2021 | Alteryx Bootcamp (Udemy) – 2020 | Tableau (Udemy) – 2019 | Data Manipulation Techniques (SAS) – 2019
